SUMMARY

Second-year Data Science student and SRC member at Eduvos with hands-on experience in data analysis, data cleaning, Python and SQL, gained through coursework, personal projects and a data science and analytics internship. Detail-focused, reliable and a clear communicator. Seeking an internship or entry-level role in data or business analysis.

EXPERIENCE

SRC Member
March 2026 – Present

Eduvos Nelson Mandela Bay Campus (full time)

- Elected to represent and advocate for all clubs and societies on campus.
- Lead initiatives to improve communication and streamline funding processes for student organisations.
- Help students find their community and make sure affiliated organisations have the support they need.

Data Science and Analytics Intern
April 2026 – May 2026

Future Interns (internship)

- Worked on real-world data projects covering data analysis, cleaning and visualisation.
- Applied analytical skills to draw insights and support decision-making.
- Built practical knowledge of data science workflows and tools. Recommended for professionalism, attention to detail and meeting deadlines.

EDUCATION

BSc in Information Technology: Data Science
February 2025 – Present

Eduvos, Nelson Mandela Bay

Completed: Database Systems, Scientific Computing in Python, Artificial Intelligence Techniques, Mathematics, Network Security.
Current: Data Structures and Algorithms, Machine Learning Algorithms, Probability and Statistics, Linear Algebra.

Higher Certificate in Information Systems (Software Development)
Graduated 2025

Eduvos, Nelson Mandela Bay

Passed 8 of 13 modules with distinction, including Basic Java Programming, Database Design Concepts and Software Engineering. Also covered C#, Linux and SQL Server database management.

PROJECTS

Global House Price Prediction
Personal project

Python, Pandas, Jupyter Notebook | GitHub

- Cleaned and explored a Kaggle global housing dataset, using IQR-based outlier removal and feature engineering.
- Produced a modelling-ready dataset of 194 rows and 17 columns, ready for model building.

Personal Portfolio Website
Personal project

HTML, CSS, JavaScript, Git, GitHub Pages | Live site

- Customised and published a responsive portfolio showing my projects, qualifications, CV and services, updated through Git.

SKILLS

Languages	Python, SQL, Java, C#, HTML and CSS, JavaScript
Data and analytics	Pandas, scikit-learn, Excel, Power BI, Jupyter Notebook
Databases	SQL Server, MongoDB
Tools	Git, GitHub, VS Code, Anaconda, Linux

CERTIFICATIONS AND ADDITIONAL INFORMATION

- Data Science and Analytics Internship Certificate, Future Interns (May 2026)
- Microsoft Azure Data Fundamentals (DP-900): preparing for the exam
- Driver’s licence: Code 10. References and the Future Interns recommendation letter available on request.
